

EDGE®

EDGE®

Developed to be the most effective glueboard flykiller on the market, Edge® is designed around patented* glueboard technology to catch significantly more flying insects than traditional glueboards.

As the glueboard is inserted into the flykiller it self-folds at the desired points, creating a unique form around high efficacy Synergetic® UV tubes. This unique design forms edges, proven to be more attractive to flies, maximises useful UV light output, and creates **a 30% larger glue area than traditional glueboards, creating a staggering 31.5% increase on a normal catch rate!**

The unique glueboard form provides three features shown to better catch flying insects:

1. The glueboard forms edges, proven to be more attractive to flies
2. 30% larger glue area than traditional 'flat' glueboards
3. The glue area is equidistant from the UV tubes, maximising the useful glue area

* Patent pending

OFFERING A 31.5% INCREASE IN CATCH RATE

FEATURES

Unique patented* glueboard technology

Catches 31.5% more flies than traditional glueboards

Swing down front guard allows simple and quick servicing, with full access to consumable parts

Patented dual wavelength Synergetic® technology for an increased catch

Service friendly features for simple and quick maintenance

Simple wall, ceiling or desk mounting

Independently tested and certified to RoHS and all relevant European standards

Contemporary British design

* Patent pending

PRODUCT CODE

ZF105

DESCRIPTION

Edge®, 30 watt, Stainless

DIMENSIONS (MM) H x W x D

380 x 570 x 110

COVERAGE (M²)

120

TUBES

2 x TGX15-18

GLUEBOARDS

1 x INF198

WEIGHT (KG)

5.5

ROOM COVERAGE

120 m²

APPLICATION

Commercial Kitchen
+ Industrial Food
Preparation
+ Front of House
