

# ELEPHON

## WALL HAIR DRYER WITH ONE SPEED.

The compact design makes it suitable for small environments, both for domestic and professional use.

### STRUCTURE

The structure is in PC+ABS and ABS.

### SAFETY

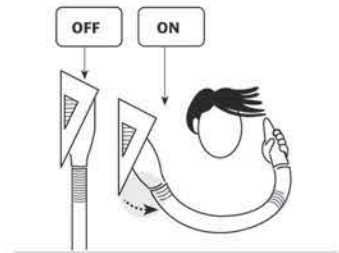

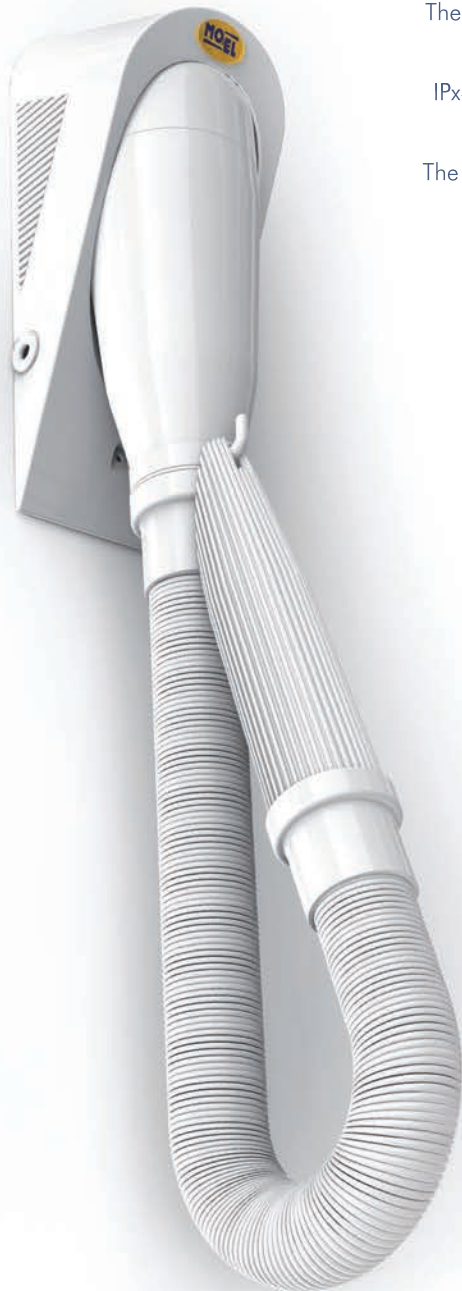

IPx4. All electric parts are protected, fixed on the wall and equipped with double insulation in class II. The device turns on and off by simply pulling and releasing the handle.

### POSITIONING

Extremely easy to install: two screws and dowels secure the device in any condition.
