

## VLP10 PAINT DRYER

Combining all the features of a flexible hand held heater, with all the benefits of a free standing paint dryer.

The VLP10 is the most ideal model to compliment any existing full size drying system. Used with the stand it also becomes an ideal additional heat source or spot drying unit.

This model is intended for use on small repairs and drying jobs, for example, Engine drying- strip removal- filler drying- stone chip repairs and preheating prior to spraying.

The VLP10 comes ready fitted with a 1.0kW Gold short wave lamp, offering the same high output as the full size models.

### VLP10- Models Available

- VLP10- Hand held model
- VLP10S- Hand held model with stand
- VLP10T- Two hand held models with one stand
